ORDER NOW

GBI TRADE ADVANTAGE

Gibson Benness Industries has been supplying cost-effective solutions for the building industry since 1959. Our Trade Advantage product range utilises our long established supplier networks to procure quality products that provide our customers with cost saving options without compromising performance.

GBI DELIVERIES - twice daily to Perth metropolitan area and daily to Bunbury and minimum 2 deliveries each week to Busselton and surrounds.

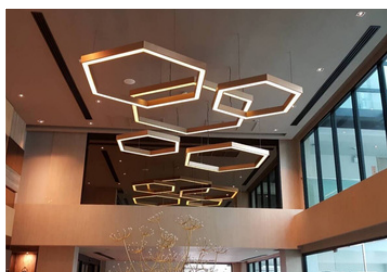

Imported Plywood

Quality Plywood Solutions

A wide range of quality plywood options for residential and commercial projects.

Laminates

GBI Metallic Laminates

Made in Germany with real metals, our Metallic surfaces range provides 5 bold colours, and 2 finishes - brushed metal and polished mirror.

Matching edgebands is available for the brushed metal colours.

Doors

Roller Doors - Made to Order

Custom roller doors available in vinyl, timber or laminate, for appliance cupboards, pantry, laundry and other alcoves.

Vinyl Doors - Made to Order

Thermolaminated vinyl doors available in a range of styles, edges, colours, and can be customised to your dimensions.

Board and Timbers

Decorative Board

As well as plywoods, our board and timber range includes construction grade hardwood timbers and our popular OptiPanel range of non reflective matt board.

RAW & VINYL WRAPPED MERANTI

CONSTRUCTION GRADE MERANTI TIMBER

Meranti is a soft to firm hardwood timber that is not subject to warping or twisting and is dent resistant. Meranti is easy to work with and has good nailing, screwing and gluing properties, and readily accepts varnish, paint or stain finishes.

Because of its stability it can be used for a wide variety of building applications including construction formwork.

SIZE: 19mm x 42mm or 19mm x 67mm | **LENGTH:** 3.9m

FEATURES:

- **Naturally stable and durable hardwood timber**
- Vinyl wrap provides additional protection - serves as a moisture barrier, provides a smooth surface and is great for dust containment.

AVAILABILITY

White Vinyl Wrapped	Bundles of 15	42mm x 19mm	GBIP-011024
White Vinyl Wrapped	Bundles of 10	67mm x 19mm	GBIP-017537

IMPORTED PLYWOOD

BCX PLYWOOD

Our BCX is a great “go-to” general purpose plywood suitable for both interior and exterior use. An economical solution for a wide range of residential and commercial projects, providing both strength and a smooth surface.

SIZE: 2440 x 1220mm | **THICKNESS:** 7mm, 9mm, 12mm, 15mm, 18mm & 25mm

GRADE, BOND & CORE:

- Yellow canarium BC grade
- Melamine UF
- Full hardwood (eucalyptus) core

LASER PLYWOOD

The materials used to construct our Laser Ply core are a higher grade than BCX with no dead knots, splits or voids. This makes it safer for laser cutting, ensuring consistent clean cuts, minimal blowouts or other complications.

SIZE: 2440 x 1220mm | **THICKNESS:** 12mm, 15mm & 18mm

GRADE, BOND & CORE:

- Yellow canarium BC grade
- Melamine UF
- Full hardwood (eucalyptus) core

CD GRADE PLYWOOD

Our CD Grade Plywood is a great value non-structural alternative to BCX Plywood. A general purpose plywood suitable for a wide range of uses including hoarding, barricades and general building, basic shelving, pallets, bins, crates and boxes.

SIZE: 2440 x 1220mm | **THICKNESS:** 12mm & 18mm

GRADE, BOND & CORE:

- Radiata pine CD grade
- Melamine UF
- Poplar core

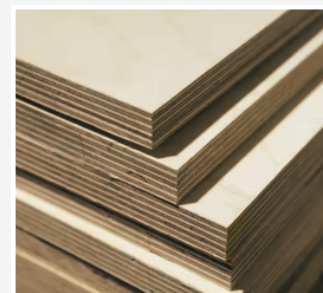

BIRCH BB PLYWOOD

A high quality plywood with a smooth, uniform surface and attractive light colour. Perfect for decorative furniture and cabinetry, panelling, and specialty fitouts such as motorhomes. Once completely sealed, this plywood is suitable for high moisture areas.

SIZE: 2440 x 1220mm | **THICKNESS:** 18mm

GRADE, BOND & CORE:

- Birch BB grade
- Phenolic 72-hour WBP
- 100% 1.5mm birch veneer throughout

IMPORTED PLYWOOD

MARINE PLYWOOD

Manufactured to the British standard BS 1088. Once completely sealed Marine plywood is suitable for external high moisture and marine applications, where high quality faces and premium edge finishes are required.

SIZE: 2440 x 1220mm | **THICKNESS:** 4mm, 6mm,, 9mm, 12mm, 15mm, 18mm & 25mm

GRADE, BOND & CORE:

- Okoume A-Grade front & back
- Phenolic 72-hour WBP
- Full hardwood (eucalyptus) core

MARINE PLYWOOD - LAMINATED

Our Film-faced marine plywood is a high-performance, moisture-resistant structural panel featuring a durable phenolic film on both sides and a high-grade full hardwood core.

SIZE: 2440 x 1220mm | **THICKNESS:** 15mm (Custom thicknesses also available)

GRADE, BOND & CORE:

- Laminated front & back - available in white or black
- Phenolic 72-hour WBP
- Full hardwood (eucalyptus) core

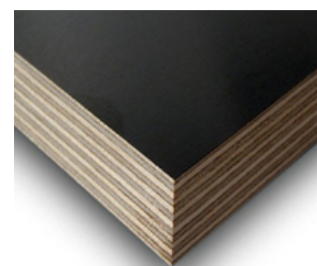

FILM-FACE PLYWOOD (FORM PLY)

Manufactured from mixed hardwood and softwood species core (CombiCore) with a black phenolic film impregnated on both sides. The film has a satin to shiny finish that prevents concrete sticking to the plywood and provides some water protection making washing down and reusing an option. The edges are painted to seal from concrete.

SIZE: 2440 x 1220mm | **THICKNESS:** 18mm

GRADE, BOND & CORE:

- Black phenolic film, both sides
- Phenolic 72-hour WBP
- Combination hardwood/ softwood core

BLACK HEXA PLYWOOD

Hexa Plywood provides the same quality features as our Form Ply but with a decorative Hex pattern on one side. Manufactured using a high density overlay (HDO) of black phenolic resin bonded to XXXX plywood. Wide range of uses including cabinet doors and drawers, furniture, shelving and other joinery projects, RV's, campervans and caravans, floors including exhibition flooring.

SIZE: 2440 x 1220mm | **THICKNESS:** 12mm, 15mm

GRADE, BOND & CORE:

- Black phenolic resin coating, single sided hex pattern.
- Phenolic 72-hour WBP
- Full hardwood (eucalyptus) core

IMPORTED PLYWOOD

LAUAN PLYWOOD

An interior/exterior non-structural plywood with full hardwood core, Lauan plywood can be easily stained and painted, or left raw used as a general purpose hoarding plywood or for floor protection during construction. Great for packaging/ shipping plywood skin, crate construction and ceiling linings.

SIZE: 2440 x 1220mm | **THICKNESS:** 3.6mm

GRADE, BOND & CORE:

- BC Grade
- Phenolic 72-Hour WBP
- Full Hardwood core

BENDING PLYWOOD

Manufactured from mixed hardwood species, our bending plywood provides design flexibility for most curved joinery work, from columns, decorative ceilings and curved feature walls to curved benches, tables and furniture. The bending radius is 300mm.

SIZE: 2440 x 1220mm | **THICKNESS:** 5mm, 7mm (Cross-cut or long-cut)

GRADE, BOND & CORE:

- Yellow canarium BC grade
- Melamine UF
- Full hardwood core

CUSTOM PRESSING SERVICES BY GIBSON BENNESS INDUSTRIES

GIBSON BENNESS INDUSTRIES provides a custom pressing service delivering tailored solutions for joiners, cabinetmakers, shopfitters and other commercial installers.

We can press veneers or laminates onto a wide range of substrates, including plywood, MDF (standard and moisture resistant), and particleboard to architectural or design specifications.

From single panel orders, single-sided or double-sided, to large commercial volumes, contact us either by phone (08) 9209 1874 or by email (manufacturing@gbi.com.au) for a competitive price.

RUNNERS

QUADRO V6 and V6+

RUNNERS FOR HEAVY CAPACITY WOODEN DRAWERS

Smooth running, durable, long-lasting runners featuring high precision stainless steel ball bearings.

- Integrated silent system closes the drawer quietly and gently.
- **LOAD CAPACITY** - Quadro V6 Silent System 30kg | Quadro V6+ Silent System 50kg
- **LENGTH** - Full extension runners up to 600mm.
- **ADJUSTMENTS** - Up to 4 front panel adjustment functions.
- For use with Innotech Atira Drawer Systems .
- Comfort functions - Stop Control (self-closing without damping), Silent System, Push to open, Push to open Silent, Easys (electromechanical opening).
- Optional - Topside infill in metal or glass

ACTRO 5D

RUNNERS FOR WOODEN DRAWERS

The perfect choice for narrow reveals, unique furniture design, and large front panels.

- **LOAD CAPACITY** - Choice of either up to 10, 40 or 70 kg
- Integrated silent system
- High lateral stability & excellent running comfort, even under heavy loads.
- **LENGTH** - 350mm, 400mm, 450mm, 500mm & 550mm.
- **ADJUSTMENTS** - Able to adjust in 5 directions. Vertical +3mm, Lateral +/- 1.5mm, Radial +/- 1.5mm, Tilt +4mm. Optional : Depth +/- 2mm.
- **NEW CATCH DESIGN** - Easy to remove front panels from drawer side
- Optional - Push to open silent system attachment

QUADRO or ACTRO?

The Hettich platform makes it easy, identical drilling patterns across the range of drawers.

Plan your furniture first and then choose the runner you want to use.

It's easy, cost-efficient and leaves plenty of scope to explore different price levels.

DRAWER SYSTEMS

INNOTECH ATIRA

DOUBLE WALL DRAWER

- Great starter drawer suitable for kitchen, bathroom & everything in between
- **HEIGHT** - Available in 76mm high drawers | 144mm or 176mm high pot & pan rail or optional inlay in glass (TopSide in Glass) or metal (TopSide in Metal)

DRAWER SYSTEMS

The following drawers are platform systems.
The drawers might change, but your drilling doesn't have to.

AVANTECH YOU

HIGH END SLIMLINE DOUBLE WALL DRAWERS

- Highly customisable and sleek. Once installed, these drawers have no visible working parts ensuring perfect performance without sacrificing aesthetics.
- Very slim 13mm drawer profile.
- **HEIGHT** - 101mm, 139mm, 187mm, 251mm.
- **LENGTH** - 270mm, 300mm, 350mm, 400mm, 450mm, 500mm, 550mm & 650mm.
- **DRAWER SIDE PROFILE** - design focussed options include:
 - Design Profiles - interchangeable components that can be clipped onto the drawer sides. 3 standard options: White, Anthracite & Silver, or Accents: Walnut, Oak, Chrome, Stainless Steel, or Aluminium.
 - Design Capes - interchangeable covers for the drawer sides, available in materials like Aluminium, Stainless Steel, Oak, Concrete, look and Hammerblow Copper, which can also be powder-coated for a custom finish.
 - Inlay Drawer sides - silver, white or anthracite inlays that allow for the integration of materials such as glass, wood, or stone into the drawer side itself.
 - ILLUMINATION OPTIONS - In-built lighting available.
- **DRAWER RUNNERS & LOAD BEARING** - 2 runner options:
 - a. QuadroYOU (ball bearing) - up to 10/30kg
 - b. ActroYOU (nylon) silent system runners - up to 10/40/70kg
- **COLOUR OPTIONS** - Silver, Anthracite, and White
- Optional comfort functions include Signature Lighting, Design Capes, Silent System, Push to open Silent, and Easys for added convenience and ease of use

SLIDING DOOR SYSTEMS

SLIDELINE SLIDING DOORS

SLIDELINE 16

SlideLine 16 is a 2-track, inset sliding door system that provides gentle and quiet running performance, even for large surface doors. A versatile system that can be used for cabinets, as well as for room dividers and room doors, recesses, or walk-in wardrobes.

FEATURES :

- Silent system set - soft-closing.
- Door height - 2000mm max. Simple height adjustment +2mm
- Door width - 500mm - 1750mm
- Door weight - Up to 80kg (60kg with silent system) up to 24mm thick
- Number of tracks - 2
- Runner profile and guide set are available in 3m sets in each a screw in or press in version. They can be cut to length to match any design.
- No routing work necessary on the doors, fitting components are simply screwed on

SLIDELINE 55

A simple system for light weight smaller doors.

FEATURES :

- Bottom running system available in both inset & overlay.
- Profile length - 4m
- Colours - white, grey, brown (up to 15kg) & anodised aluminium (up to 30kg)
- Silent system attachment available or stay closed function.

SLIDELINE M

Bottom running system available in both inset and overlay. Available in 1 or 2 track system. Inset doors available with screw on profiles or press in (for routing in).

FEATURES :

- Silent System - Soft closing, soft opening, soft colliding
- Door height - 2600mm max. Height adjustment +3mm
- Door width - 550mm - 1500mm
- Door weight - Up to 50kg
- Number of tracks - 2
- Time-saving easy installation - guide easily clips into place without the need for tools, and soft closing element easily mounts to the runner profile.

Soft closing element easily mounts to runner profile

SLIDING DOOR SYSTEMS

TOPLINE SLIDING DOORS

TOPLINE L

The TopLine L top running sliding door system makes efficient use of precious storage space.

Ideal for tall cabinets with 2 or 3 doors, heavy doors slide with effortless ease, almost appearing to float.

The overlay door position and minimal door protrusion provides an elegant appearance, as well as maximise use of interior space.

FEATURES :

- Silent System - Soft closing, soft opening, soft colliding
- Door height - 2600mm max. Height adjustment +3mm
- Door width - 550mm - 1500mm
- Door weight - Up to 50kg
- Number of tracks - 2
- Time-saving installation - guide easily clips into place without the need for tools, and soft closing element easily mounts to the runner profile.

Soft closing element easily mounts to runner profile

TOPLINE XL

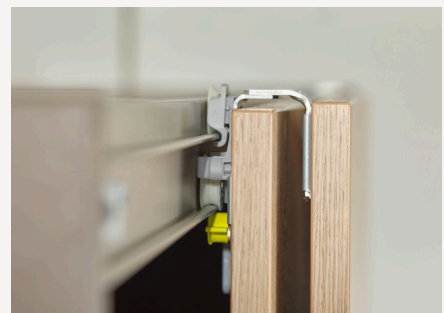

TopLine XL is capable of doing the heavy lifting with this set of sliding doors allowing for up to 100kg, while still being able to provide soft closing features.

Floor to ceiling, large format sliding door units make an impressive statement and provide visual clarity in a room, the TopLine XL is ideal for large cabinets with 2, 3 or 4 doors.

One of the impressive features of TopLine XL is its user convenience. The sliding doors open and close with ease and minimal noise, thanks to the innovative floor-standing guard that allows doors to be set down without worrying about damaging them. Additionally, the guide components glide up automatically.

FEATURES :

- Damping silent system set - soft-closing, soft opening.
- Door height - 3000mm max. Simple height adjustment +2mm
- Door width - 600mm - 2000mm
- Door weight - Up to 100kg
- Number of tracks - 2
- Tool-less adjustment for height, door overlay, and door offset
- The clip-in installation also ensures that your floor-to-ceiling cabinets have a seamless appearance without visible screws.
- The running component is extremely shallow, making it hardly visible.

To add to their elegance, both the TopLine L and TopLine XL comes with stick-on decorative tapes in two colors that add a finishing touch to the runner profile.

FOLDING DOOR SYSTEMS

WINGLINE FOLDING SYSTEMS

WINGLINE L

WingLine L is suitable for doors up to 2.4m high and 600mm wide and weighing up to 25Kg per door.

- Top running system with bottom guide. Bottom guide and profile do not have to be used for smaller doors.
- System available in 12Kg or 25Kg, with silent system and self closing or without for push-to-open.
- Push and pull to move arm can be used but not necessary.
- Runner profile and guide available in 2,400mm lengths only in either a silver anodised or white powder coated.

WING 77

Hettich's only freely moveable system. Available in 2 or 4 door.

- Folding door system without side mounting, with guide profile at top / bottom, for for folding doors that move freely in front of the cabinet body
- Components are completely concealed,
- Bottom guide is mounted on the underside of the bottom panel.
- Number of door wings - 2 or 4
- Door weight - 2-door 25 kg/ door or 4-door 20kg/ door
- Door width - 500 mm max (2-door), 400mm max. (4-door)
- Door height - 2400mm max.

WINGLINE 230

The WingLine 230 is the giant among folding door systems: opening areas of over 6 m² in a single movement and with NO bottom track!

WingLine 230 is designed to handle the toughest tasks, supporting doors with a wing weight of 20 to 25 kg. Its side mounting with Sensys 8645i fast assembly concealed hinge ensures extreme sturdiness, making it perfect for large wardrobes, or as a quick opening room divider for sculleries, utility rooms, the office, or walk in storage areas

- Door wing/ panel weights of 20 to 25kg.
- Wing/Panel widths of 400 to 600 mm
- Door thicknesses of 16 to 25 mm
- Ideally used with Sensys hinges for a soft closing Bi-fold door.
- Does not require center panels or a bottom guiding track.
- Available with Pull to move Silent feature

FOLDING DOOR SYSTEMS

WINGLINE FOLDING SYSTEMS

WINGLINE S

The WingLine S is the lightweight option for folding doors, and a popular choice for overhead kitchen cabinets.

- Top guide profile with no bottom track.
- Number of door wings - 2
- Door wing weight - 5 kg max.
- Door wing width - 450 mm max.
- Door height - 1000 mm max.
- Push to move – Yes
- Pull to move silent – Yes

POCKET DOOR

KA 5740

Hettich's simple pocket door system.

Mounted on the KA 5740 retractable door fitting, the doors can slide back into the sides of the cabinet body when they are opened - perfect for TV and multimedia furniture, laundries or utility areas within the kitchen.

- Door weight - 8 Kg max..
- Door height - 1,500mm max.
- Door width - 600mm max.
- Door thickness - 19mm max.
- 350mm - 700mm ball bearing running lengths.

MAGIC LIGHTING

LINEAR LIGHTS

For highly uniform illuminations, Equally suited for functional and accent lighting.

- Length - 1.2m to 10m
- Available in 12V, with 3 lights in the range at 24 V
- 5 Colour options from Xtra warm white to cool white
- LED range from 80 LED's / meter to 233 LED's /meter
- Cut to size to suit many applications with a variety of connectors available.
- 2 of Versa range have a high IP rating suitable for Alfresco and wet areas.
- Adapted to ""Smart home"" Zigbee switching systems

SWITCH SYSTEMS

Wide range of switching systems, from touch switches, remote-controlled devices, dimmers, or sensors, compatible with smart home systems. Available with 12V and 24V lighting.

CHANNEL LINES

Crafted from top-grade aluminium, these profiles are perfect for incorporating LED strips and creating your unique lighting ambience.

- 6 different profiles from ChannelLine A to i2, covering the range of Versa LED lights
- A range of different colour combinations with Anodised and Black profiles with clear, opal or black diffusers in some profile models.
- Length - 1.2m to 10m

SPOTLIGHTS

range of 6 Magic spotlights in 12V DC

- Available in different light tones from warm white to cool white and also Multiwhite which the light tone can be changed with a Magic switching system.
- Surface mounting is also available for eg, Sign Plus
- MultiLite Flood has different cover ring finishes, Chrome, Aluminium, Stainless Steel look, and Matt black.
- All are easy to fit with "Plug and Play"
- Adapted to ""Smart home Zigbee"" switching systems

BROCHURE

ADHESIVES, THINNERS & CONTACT CLEANERS

ANCHORWELD CONTACT ADHESIVE *

A premium quality, high solids, sprayable contact adhesive with high heat resistance (100°C), good spray ability, and quick drying with early green strength coupled with a good working tack life. n-Hexane solvent safe and suitable for use with decorative laminates (Laminex, Formica), timber and timber composites.

RED 2700 - GBI Product Code - 000001

CLEAR 2701 - GBI Product Code - 000002

ADHESIVES

ANCHORWELD 901 CLEANER THINNER *

A specifically formulated solvent blend that is ideally suited for cleaning off dried water based and solvent based adhesives, such as spillage and adhesive over-sprays.

GBI Product Code - 000016

ANCHORWELD 802 ABS CLEANER *

A mild solvent mixture which has been designed for the cleaning of plastic surfaces such as ABS, melamine and PVC. Low odour, fast drying and will not damage sensitive plastic surfaces if used in accordance with manufacturer's directions.

GBI Product Code - 011876

3100 HYBOND WOOD PVA ADHESIVE *

An economical, medium setting, unfilled high viscosity, general purpose PVA. It produces a clear glue line and is suitable for use with most soft woods, pine, particleboard, and normal cabinet timbers and can be used in conjunction with mechanical fasteners such as nails and screws.

GBI Product Code - GBIP 000003

* Supplied in 20L drums only

GIBSON BENNESS INDUSTRIES PTY LTD

PLEASE CONTACT GBI FOR MORE INFORMATION
PHONE | (08) 9478 0444 EMAIL | orders@gbi.com.au

RELEASE AGENT AND CLEANING AGENT

RELEASE AGENT LPZ/II *

Machine infeed application.
Application of the special agent to the upper and lower surface prevents emerging glue residue from adhering to the work piece.

GBI Product Code - 014736

ADHESIVES

RELEASE AGENT N-FLY *

Application of this release agent onto the pressure roller prevents glue from adhering to it. The release agent is then transferred to the edging and carried to the sliding shoes. It can also be applied to other tooling to prevent glue residue adhering. The N-FLY Release Agent can be sprayed directly onto the edging material surface (acrylic/ aluminium). In addition, it will also prevent any damage to the protective film on the edging material.

GBI Product Code - 014737

CLEANING AGENT LP163-93 *

By the application of the cleaning agent in front of the buffing wheels, the previously applied release agent will be removed, together with any excess glue residue. The edge and the glue joint are also cooled. The edging material radius is polished to regain its sheen and match the colour of any surface. The result - an absolutely clean edge.

GBI Product Code - 014738

ANTI-STATIC COOLANT LP289/99 *

After the edgeband has been bonded, the antistatic coolant is sprayed directly onto the adhesive joint and the edgeband with our fine nozzles. It ensures static discharge of the workpiece and the edgeband, which reduces the adhesion of milling chips. The coolant also ensures even and gentle cooling of the adhesive joint, which reduces soiling of the following tools and sensing skids.

GBI Product Code - 018037

* Supplied in 30L drums only

B BENDY BOIS

FLEXIBLE DECORATIVE WALL PANELS

Curves Made Easy.

Perfect for cabinetry or feature walls, BENDY BOIS BENDY WOOD panels bring natural sophistication to any project.

The range is created from a High Density Fibreboard (HDF) moisture resistant engineered wood substrate. Each panel is crafted precisely using CNC machinery and is backed with high quality PVC sheeting.

The unique combination of PVC and MDF allows these panels to adapt to concave and convex surfaces, even around tight curves. Purpose-built for cabinet makers, builders, and designers seeking seamless curves and professional-grade results. Whether wrapping a kitchen island, building curved cabinetry, or creating a feature wall.

- 10 highly fashionable styles
- 3 finishes - raw, primed & wood veneer
- Primed ready to paint in any colour
- Real wood veneer in black walnut or white oak

The primed panels come pre-finished with an all purpose primer, ready to paint in any colour. Designed to achieve crisp edges, sharp lines, and a consistently smooth surface.

The raw panels are pre-sanded and engineered for compatibility with high-performance paint systems, making it the perfect foundation for 2-pac and other sprayed finishes.

The real wood veneer range combines luxury and flexibility, featuring premium-grade oak and walnut finishes.

LEAD TIMES - Please allow 5-10 business days for ex-East deliveries.

MANUFACTURING

Custom Fabrication Services

GBI Manufacturing provides support and custom solutions for the cabinet making & joinery industry. Recognised for our commitment to quality and precision, we proudly support the joinery trade with tailored manufacturing solutions across kitchens, commercial fit-outs, and residential cabinetry.

Operating from our purpose-built facility in Wangara, providing:

- A flow-through postformer for seamless laminate shaping;
- CNC machines for precision cutting and detailing; and
- An automated press capable of applying laminates or veneers to a variety of substrates including particleboard, MDF (standard and moisture resistant), and plywood.

Our services include:

Benchtops

Custom & Post-formed Benchtops

Choose from 8 different profiles including postform, square, ABS edged, and waterfall for residential and commercial projects.

FENIX®

NANOTECH MATERIAL FOR INTERIOR DESIGN. MADE IN ITALY.

FENIX® is the next generation of innovative interior design materials created by Arpa Industriale.

It is suitable for both vertical and horizontal use, including kitchens, bathrooms, hospitality, healthcare, transportation, and furniture (including tables, chairs, bookshelves, and partitions).

FENIX® is created using nanotechnology and multi-layer coating, and the next generation of thermosetting acrylic resins, that are hardened and fixed using an Electron Beam Curing process.

As a result, FENIX® surfaces are non-reflective, anti-fingerprint, and soft to touch. The infusion of nano particles, means FENIX® surfaces are highly resistant to scratches, abrasions, dry heat, acid solvents, and household reagents. Micro-scratches can also be thermally repaired.

FENIX® surfaces are
super matt, soft to touch
and anti-fingerprint.

Anti-Fingerprint

Low Light Reflectivity

sizes are available on
request. Minimum
quantities may apply.

FENIX®

NANOTECHNOLOGY

Thermal Healing of Superficial Microscratches

FENIX® uses nanotechnology to blend acrylic resins with a high-pressure paper core. A process called Electron Beam Curing. Its surface is made up of a network of crossed polymers, each with its own memory.

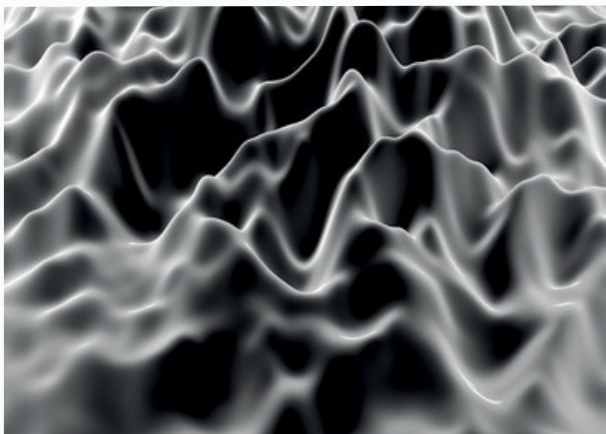

Although FENIX® is heat-resistant, heat can be used to repair the surface should superficial micro-scratches occur. This is due to the dense grid of peaks scattered on the surface that are reactivated with the presence of heat, restoring the surface to its original appearance many times over.

Low Light Reflectivity, Extremely Matt Surface

What strikes you at first glance about FENIX® is its extremely matt surface.

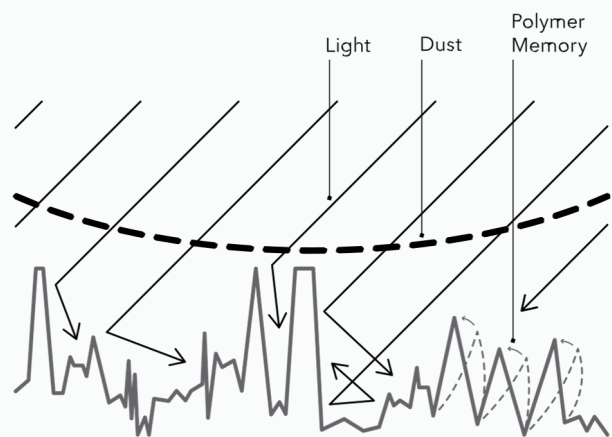

When viewed under a microscope, the surface of FENIX® is uneven, a landscape of peaks and troughs. Rather than being reflected, the light is diffused almost trapped by the peaks, which in turn creates the highly matt non-reflective surface.

Microscopic close-up of FENIX surface

Easy to Clean

FENIX® is hygienic, mould resistant, and waterproof. Its high performance surface allows dust and water to simply slide off. Spills, food or marks sit on top of the FENIX® surface without soaking in, so can be wiped off with ease.

Anti-Fingerprint

Touching the FENIX® surface will not leave behind fingerprints due to the nanotech make up of the material.

SUPERIOR PORCELAIN SURFACES MADE IN ITALY

Developed and manufactured in Italy since 2001, LAMINAM breaks the traditional concept of surfaces, offering extremely durable and lightweight porcelain slabs in large sizes and minimal thicknesses.

LAMINAM porcelain surfaces can be applied to a broad range of fields and diverse applications, from architectural design to interior design, and used in an endless range of applications:

- KITCHEN COUNTERTOPS AND ISLANDS
- BATHROOM VANITIES AND TILING
- FLOORING AND WALLS
- SPLASHBACKS, FIREPLACES, AND CLADDING
- CABINETS, DOORS, AND FURNITURE
- INDOOR AND OUTDOOR APPLICATIONS
- ALFRESCO KITCHENS

SLAB SIZES

LAMINAM porcelain slabs are available in a range of formats to suit a wide range of applications.

SIZE

- 3000mm x 1000mm
- 3000mm x 1200mm
- 3240mm x 1620mm

THICKNESS

- Laminam 2mm/ 2+mm
- Laminam 3mm/3+mm
- Laminam 5mm/ 5+mm
- Laminam 12+mm
- Laminam 20+mm

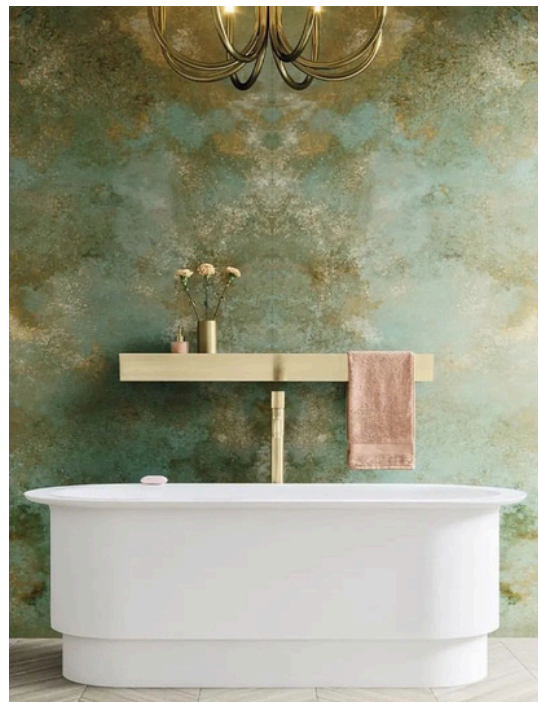

The 3+mm, 5mm, 5+mm and 12+mm formats are stocked locally. Other formats are supplied ex-Italy. Please check with your GBI Account Manager for lead times.

ARCHITECTURAL RANGE

A limited range of highly popular styles ready to ship including 1m x 1m and 1.2m x 1.2m slabs in 5mm thickness, perfect for flooring projects especially where access can be a challenge.

Countertops and Splashback - iNaturali Diamond Cream

Feature Wall (Bathrooms) - Ossido Verderame

FEATURES & BENEFITS

LAMINAM porcelain surfaces are made with advanced technologies and sustainable processes, and designed to be extremely durable and able to withstand intensive use.

With a high resistance to mechanical stress, chemicals, wear, scratches, and deep abrasions, LAMINAM is by nature hygienic and resistant to stains, heat, frost, mildew and the effects of UV rays.

All characteristics and chromatic properties of Laminam's slabs remain unchanged over time or under any weather conditions. These revolutionary slabs are also environmentally friendly.

HEAT RESISTANT

Resistant to high temperatures and heat from pots or pans. Laminam is resistant to fire, and in the event of fire does not release toxic substances or smoke.

SCRATCH RESISTANT

Highly resistant to scratches and deep abrasions.

STAIN RESISTANT

Highly stain resistant as the surface is non-porous and very dense.

UV RESISTANT

UV Stable so the colours will never dull or fade over time, even when subjected to severe changes in climate, making it ideal for outdoor use.

RESISTANT TO HARSH CHEMICALS

The surface is unaffected by most harsh chemicals and acids.

HIGH STRENGTH

Due to its excellent mechanical properties, LAMINAM is suitable for demanding applications like flooring and countertops.

ENVIROMENTALLY FRIENDLY

Sustainable eco-friendly processes using natural and recycled materials, low energy use and zero polluting emissions. LAMINAM is a totally natural product.

ANTI-GRAFFITI

LAMINAM is the first graffiti-proof porcelain surface, scratch resistant and even the strongest paints can be removed easily.

FOOD SAFE

Hygienic surfaces that are suitable for food preparation. LAMINAM is NFS certified.

Countertops and Splashback - iNaturali Statuarietto

External Cladding - Oxide Moro

EASY TO CLEAN

Mild detergent and a soft cloth will remove most spills and residue.

Colour Selections

The Laminex Colour Collection is a timeless palette inspired by the colours from nature.

Whites & Neutrals

Featuring classic shades of white, organic mid-tone neutrals and a selection of darker tones from intense charcoals to black.

Woodgrains

Reflecting the authentic textures and tones of solid timbers, from cool and neutral grey tones through to light and dark warm tones.

Minerals

Inspired by the textural beauty of natural stone and concretes, featuring marble designs, aggregates in quartz and terrazzo styles and raw concretes.

Accents

An evolving palette that reflects shifting design trends, from muted bolds to brilliant brights, patterns and metallics.

Finish Selections

Laminex finishes are designed to add dimension and tactility to spaces.

AbsoluteGloss A premium, ultra-glossy, reflective finish with a mirror sheen.

AbsoluteGrain A premium matte woodgrain finish featuring subtle textural variation and intricate detailing to give the organic look and feel of natural timber.

AbsoluteMatte A premium, super-matte, intriguingly tactile and fingerprint resistant finish.

Carbide A subtle textured finish with a soft sheen.

Chalk A low gloss, tactile finish with the look and feel of a raw veneer.

DiamondGloss A high gloss, smooth touch finish.

Flint A subtle, textured finish with a soft sheen.

Gloss A high gloss, smooth touch finish akin to a whiteboard surface.

Metallic A real metal surface designed for special effects on vertical surfaces.

Natural A durable, low sheen, smooth touch finish.

Nuance A matte and gloss combination with a linear, sandblasted woodgrain effect.

Plex A low gloss finish with a textile effect.

Silk A sleek, semi-gloss, smooth touch finish.

Product Selections

Laminex is a proud Australian manufacturer. Our products combine modern design with resilient materials.

Laminate (HPL)

A thin, highly resilient and versatile surface mostly adhered to a thicker substrate to make laminate benchtops or wall panels. Postformable laminates can be moulded to a radius for seamless benchtops and curved designs.

Compact Laminate

A robust, moisture resistant, self-supporting panel with high scratch, wear, stain and impact resistance. Often specified for its toughness and serviceability in demanding environments.

Decorated MDF

A mainstay of interior joinery due to its versatility and resilience to wear. It's also easy to clean and unlike natural veneers and other materials, it resists fading. Matching edging is available.

Decorated Particleboard

A cost effective solution in project design and construction, often used as commercial wall cladding or in retail and office fit-outs as workstations and office furniture. Matching edging is available.

Cut to Size Laminates (HPL) options also available — see page 60 for details.
Cut to Size available for Compact Laminates.

This clever system provides a way to install timber battens on interior walls allowing for creative freedom and seamless décor and colour integration. Fast and efficient installation make them the ideal choice for whole and feature walls. Laminex Architectural Wall Panels are the ideal material to develop your next project from concept to completion.

Smarter, faster installation

The InvisiLock™ joining system is exclusive to the Laminex Architectural Wall Panel range, allowing each panel to be connected seamlessly, providing a bow and gap free finish and minimising installation time

Reversible panel

The refined Classic Flat Profile offers a modern reversible panel for added flexibility, allowing you to choose between a Pencil line Joint (VGroove 1mm gap) or an Express Joint (trapezoid 7mm gap).

Effective Coverage, Height x Width (mm):

- Classic Flat** 3000 x 1174mm
- Batten 40** 3000 x 560mm
- Batten 60** 3000 x 540mm
- VGroove 100** 3000 x 500mm

*MDF MR EO substrate provides a Natural MDF Shadowline.

MDF MR EO BLACK substrate provides a Black Shadowline.

Sheet = supplied as a single sheet

PK2 = supplied as 2 sheet/panel pack.

PALLET SIZE : 30 (Classic Flat) | 15 (Batten 40, Batten 60 & VGroove 100)

The Ceiling Panel & Tile range allow creative freedom in standardised ceiling systems, for new and retrofit applications.

Laminex DesignEdge Doors and Panels are manufactured using 16mm or 18mm E0 MR MDF substrate, as available, and FormWrap and ColourTech are manufactured using the Ultracrat® 18mm E0 MR MDF substrate. For more details, refer to the Technical Datasheet. Panel size dimensions: Min and Max panel size dimensions vary by profile and range. Refer to the Easy Reference Guide. Documents available at www.laminex.com.au. Colours may vary depending on a number of variables including the types of substrate. While we will endeavour to match colours, they may not be an exact match. Please familiarise yourself with the colour match before placing an order. By placing an order you accept the slight colour variation which is not a defect.

Toilet and Shower Partitioning, Privacy Panels, Vanities, Seating & Lockers

Discover Laminex® Waterloo Partitioning Systems and learn how effortless specifying toilet and shower partitioning can really be. All Laminex Waterloo Partitioning systems are proudly Made in Australia using quality Laminex Australian Made substrates and are backed by our 10 year warranty on our compact laminate board and 7 year warranty on Structural MR® MDF. Specifying Waterloo is as easy as 1, 2, 3. Simply follow the steps below to complete your specification or obtain a quote.

Step 1. Select a System

Privacy Plus

Ceiling Suspended

Pedestal Mounted

Floor Mounted

Freestanding

Floor to Ceiling

Custom designs also available to suit your individual needs.

Step 2. Select a Substrate Material

Laminex Multipurpose Compact Laminate 13mm

- Self-supporting high pressure laminate based on thermosetting resins homogeneously reinforced with cellulose fibres.
- High pressure decorative laminate applied to both sides.
- All cut edges have a polished black edge that doesn't require additional laminate for added protection.
- Excellent resistance to scratches, graffiti, vandalism and water.
- Premium level of hygiene protection in healthcare environments.
- Limited colours also available in 18mm, refer to the Availability Guide.
- All Laminex Multipurpose Compact Laminate comes with Protec+ Antimicrobial Technology, making it the safer choice.
- Global GreenTag Certified – Level A.

Made in Australia

Protec+ Antimicrobial Technology

WET & DRY AREAS

DRY AREAS ONLY

Laminex Structural MR® MDF 18mm/32mm

- A robust MDF core that provides superior impact resistance. The 18mm substrate features an extra high density core for up to twice the impact resistance of Laminex Vertiboard 18mm.
- Decorative melamine surface pressed on both sides of the board.
- All Laminex Structural MR MDF comes with Protec+ Antimicrobial Technology, making it the safer choice.
- Global GreenTag Certified- Level A.

Made in Australia

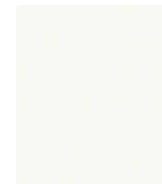

Protec+ Antimicrobial Technology

Step 3. Select a Colour & Finish

Waterloo partitioning systems are available in all Laminex Multipurpose Compact and Laminex Vertiboard colour and finish options, giving you the choice of over 50 stunning décor options. Refer to the availability guide above for a complete list of colour and finish options for each substrate.

Navigating the range

Colour Guide

A popular range of the most hard-working colours to answer almost any project brief or space.

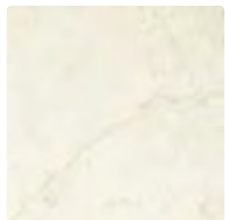

Whites & Neutrals

From whites to black and lots more in between, this range offers the most popular solid colours for reliable results.

Woodgrains

A range of the most popular oaks and other realistic woodgrains designed to coordinate easily.

Minerals

A go-to range of the most popular marble designs, granite and concrete looks to cover a wide range of project styles and tastes.

Accents

Add a versatile pattern or a touch of metallic to lift projects.

Finish Guide

A range of simple, hard wearing classic finishes to help add texture or shine to projects.

AR Plus® A high gloss finish for moderate use applications that require more care and maintenance.

Gloss An easy care, semi-gloss finish.

Grain A hard-wearing, tactile, matte woodgrain texture.

Metallic A real aluminium surface in an anodised or brushed tactile surface.

Pearl A smooth, lightly stippled, hard-wearing finish.

Velour A highly durable, multipurpose low sheen finish.

Velvet A hardwearing, soft touch, multipurpose cabinetry finish.

Product Guide

Formica offers a range of benchtop, cabinetry, wardrobe and cabinetry interior panel products for affordable style.

Laminate (HPL)

A thin, hard-wearing laminate suitable for benchtops in moderate to high use areas like busy kitchens, bathroom vanities and laundries.

Decorated MDF

Versatile and hard-wearing panels ideal for cupboard doors, drawer fronts and shelving.

Decorated Particleboard

Versatile and affordable in larger sheet sizes for fewer joins and a clean finish for walk-in wardrobes and large-format storage solutions or coloured cabinetry interiors.

EasyFit Benchtops

EasyFits benchtops are made using a durable laminate, formed to a 3mm radius around a Moisture Resistant Particleboard offering a contemporary square edge look.

Colour code on merchandising chips will not always match with the codes in this national availability guide. Cut to Size options also available — see page 83 and 114. Stocking in line with parent product size. * The edging tape is not an exact match. Please familiarise yourself with the colour match before placing an order. By placing an order you accept the slight colour variation which is not a defect.
